

Hi CNC Enthusiast,

I wanted to thank you again for signing up to our Free CNC For Beginners Course. Welcome to Day 7.

I hope that you learned a lot from this course over the last week. When you own a CNC system, the amount of uses and project ideas that you can create is limitless. It is so exciting to know that you can simply think of an idea and within minutes, you can turn it into a real product, in your own home, office or workshop. The possibilities are endless.

Valuable Offers

In addition to the CNC knowledge that I've shared with you in the last week, I wanted to offer you a special discount of **\$100.00 off a purchase of a STEPCRAFT CNC system**. To take advantage of this offer, please use coupon code "**coursesystem**" at checkout.

For those of you who already own a STEPCRAFT CNC System, I want to offer you a special discount of **10% off any accessory order**. Please use coupon code "**courseaccessory**" at checkout.

If you are interested in purchasing a CNC System, please give us a call at 203-556-1856 and either myself, or one of my team members would be happy help you. We know there are many choices that you can make when looking to buy a CNC system, but I am hoping that you will find that not only is STEPCRAFT a very high quality and versatile solution, but that you will find our sales and support to be second to none.

Some follow-up items for you:

Download a FREE demo copy of Vectric Cut 2D or VCarve by [CLICKING HERE](#)

Vectric offers a full working demo copy so you can try the software and also be able to see your creations in 3D using their preview feature. The only thing you can not do with these trial versions, is to output the GCode for use on the CNC - you will need a paid license for that.

Follow our Facebook page by [CLICKING HERE](#)

Every day we share new projects, customer creations, tips, tricks and special promotions on our Facebook page. We look forward to having you join us.

Learn the very first project that every STEPCRAFT customer will create - [CLICK HERE](#)

This page contains a video and the files necessary to make your very first STEPCRAFT project; the STEPCRAFT logo. The video will walk you through the basics of Vectric and how to use UCCNC. Once you have successfully created this project, the possibilities of what you can create are endless.

Download our FREE eBook - "*Start Your Own Business - With A Stepcraft All-In-One Creation System*" by [CLICKING HERE](#).

This book has helped thousands of people just like you, turn their creativity into a full or part-time business, right in the comfort of your own home.

Lastly, be sure to [SUBSCRIBE](#) to our YouTube Channel by [CLICKING HERE](#)

We update our channel weekly with new projects, new product demos and much more... be the first to know!

Once again, I wanted to thank you for signing up for this course. I encourage you to stay subscribed as I will be including future emails with special projects, promotions and other related tutorials. I promise we will not send excessive emails, but the ones we do send will be valuable and informative.

If there is anything else that you would like to know about STEPCRAFT or CNC in general, please don't hesitate to email me at info@stepcraft.us and I will be happy to help with your questions.

Sincerely,

A handwritten signature in black ink, appearing to read 'ERICK ROYER', with a long, sweeping horizontal line extending to the right.

Erick Royer
